NOTICE OF PUBLIC SURVEY FOR VALLEY COMMUNITY CENTRE PARK UPGRADES

Dear Resident,

July 29, 2020

The City of Hamilton is beginning the Master Plan process for improving Valley Community Centre Park, a 4.0 hectare (10 acre) community park located at 287 Old Guelph Road in Dundas, Ward 13. Many of the park’s amenities are nearing the end of their life cycle. As such, the City is beginning the process of rejuvenating the park and reaching out to the community for input.

Proposed park upgrades being considered include:

- Rejuvenation of aging baseball diamonds
- Rejuvenation of aging parking lot, while also implementing measures to eliminate illegal vehicular access into park
- Remove aging basketball court and replace with a new court (multi-purpose basketball/ball hockey or multi-purpose tennis/pickleball)
- Asphalt pathways for accessibility to amenities
- Granular walking trail around the park perimeter
- Merge senior and junior play equipment into one location
- Replace aging play equipment and install new wood fibre safety surface
- Naturalization plantings
- Tree plantings
- Benches and waste receptacles

A preliminary concept can be found on page 2.

Please visit our Project Web Page! www.hamilton.ca/valleyccpark

There you will find:

- A full-sized colour version of the preliminary concept, and
- An online survey where you can give us your feedback on the proposed upgrades!

Please provide your feedback by **Friday September 18, 2020**.

If you would like a hard copy of the survey, please contact Jessica Brommer:

Jessica Brommer
